Product Description

The microfiber outer shell slurps up 4x its weight in moisture, while the laminate foam core

resists odor even if you use it every day. Our stylish mat protects your counter from scuffs and scratches while also keeping your most prized glassware safe and sound. And If you ever feel like washing your dish drying mat, simply toss it in the wash with the rest of your laundry-this absorbent microfiber construction has a flexible core that does not weaken in the wash. This kitchen mat is easy to clean up. Wipe off spills and water to clean, or put it in the dishwasher for quick cleaning. There may be some water stains during use, but if you wash it with water, it will become clean again. Our mat protects your counters by providing a protection layer when placed under a dish rack, pots, pans, dishware, and glassware. It also protects under small appliances such as a mixer, blender, or coffee maker.
